Who We Are

California Sealing Solutions is a distributor in the rubber, metal and plastic industry. It was originally founded to focus on sealing areas . However, during the years, we have expanded our business to metal fabrication, casting, rubber and plastic molded parts. Our business is now more focused on helping our customers with custom sourcing solutions as well as sealing solutions.

Quality, Service, Price, stands for the following:

Quality	Service	Price
•CSS has developed and implemented a quality management system in order to document the company's best business practices, to better satisfy the requirements and expectations of its customers, and to improve the overall management of the company. •The quality management system of CSS and our partner factories meet the requirements of international standard ISO 9001: 2008	•CSS strives to identify current and future customer needs, to meet their requirements and to exceed their expectations. Customer concerns and other customer feedback are continually monitored and measured to identify opportunities for improvement.	•CSS is able to provide our customers with competitive pricing as result of low overhead costs, better supplier relationships and logistical expertise.
